Contents Volume 191 (1997)

Effect of arbuscular mycorrhizal fungi inoculation of rice seedlings at the nursery stage upon performance in the paddy field and greenhouse
M.Z. Solaiman and H. Hirata **1–12**

Availability of fluoride to plants grown in contaminated soils
A.K.M. Arnesen **13–25**

Release of carboxylic anions and protons by tomato roots in response to ammonium nitrate ratio and pH in nutrient solution
P. Imas, B. Bar-Yosef, U. Kafkafi and R. Ganmore-Neumann **27–34**

Phosphate induced carboxylate and proton release by tomato roots
P. Imas. B. Bar-Yosef, U. Kafkafi and R. Ganmore-Neumann **35–39**

Carbon allocation and carbon transfer between *Betula papyrifera* and *Pseudotsuga menziesii* seedlings using a ^{13}C pulse-labeling method
S.W. Simard, D.M. Durall and M.D. Jones **41–55**

Nitrous oxide production, its source and distribution in urine patches on grassland on peat soil
J.G. Koops, M.L. van Beusichem and O. Oenema **57–65**

Root elongation in saline solution related to calcium binding to root cell plasma membranes
U. Yermiyahu, S. Nir, G. Ben-Hayyim, U. Kafkafi and T.B. Kinraide **67–76**

The capacity of soils to preserve organic C and N by their association with clay and silt particles
J. Hassink **77–87**

Field study of beech (*Fagus sylvatica* L.) and melojo oak (*Quercus pyrenaica* Willd) leaf litter decomposition in the centre of the Iberian Peninsula
F. Pardo, L. Gil and J.A. Pardos **89–100**

Determinants of *Flemingia congesta* and *Dactyladenia barteri* mulch decomposition in alley-cropping systems in the humid tropics
J. Henrot and L. Brussaard **101–107**

Relationships among foliar chemistry, foliar polyamines, and soil chemistry in red spruce trees growing across the northeastern United States
R. Minocha, W.C. Shortle, G.B. Lawrence, M.B. David and S.C. Minocha **109–122**

Zinc efficiency of oilseed rape (*Brassica napus* and *B. juncea*) genotypes
H.S. Grewal, J.C.R. Stangoulis, T.D. Potter and R.D. Graham **123–132**

A rapid hydroponic screening for aluminium tolerance in barley
J.F. Ma, S.J. Zheng, X.F. Li K. Takeda and H. Matsumoto **133–137**

Effect of tissue phosphorus concentration on the mineralisation of nitrogen from stylo and cowpea residues
S.N. Nguluu, M.E. Probert, R.J.K. Myers and S.A. Waring 139–146

Does grazing mediate soil carbon and nitrogen accumulation beneath C_4, perennial grasses along an environmental gradient?
J.D. Derner, D.D. Briske, T.W. Boutton 147–156

The acetylene-induced decline in nitrogenase activity in root nodules of *Elaeagnus angustifolia*
G.V. Johnson, C.R. Schwintzer, J.D. Tjepkema 157–161

Development of microtopography in a semi-arid grassland: Effects of disturbance size and soil texture
G.A. Martinez-Turanzas, D.P. Coffin, I.C. Burke 163–171

Nickel tolerance and copper-nickel co-tolerance in *Mimulus guttatus* from copper mine and serpentine habitats
G.H. Tilstone, M.R. Macnair 173–180

Root hairs and phosphorus acquisition of wheat and barley cultivars
T.S. Gahoonia, D. Care, N.E. Nielsen 181–188

Regulation of nitrogen fixation in infected cells of leguminous root nodules in relation to O_2 supply
F.J. Bergersen 189–203

Effects of soil extracts from repeated plantation woodland of Chinese-fir on microbial activities and soil nitrogen mineralization dynamics
Qishui Zhang 205–212

Trophic interactions between bacterial-feeding nematodes in plant rhizospheres and the nematophagous fungus *Hirsutella rhossiliensis* to suppress *Heterodera schachtii*
R.C. Venette, F.A.M. Mostafa, H. Ferris 213–223

Soil organic carbon dynamics in cleared temperate forest spodosols converted to maize cropping
C. Jolivet, D. Arrouays, F. Andreux, J. Lévèque 225–231

The dependence of methane transport in rice plants on the root zone temperature
T. Hosono, I. Nouchi 233–240

Spatial distribution of methane-oxidizing activity in a flooded rice soil
S. Kumaraswamy, B. Ramakrishnan, S.N. Satpathy, A.K. Rath, S. Misra, V.R. Rao, N. Sethunathan 241–248

Drought-induced changes in soil contact and hydraulic conductivity for roots of *Opuntia ficus-indica* with and without rhizosheaths
G.B. North, P.S. Nobel 249–258

Substrate conditions, foliar nutrients and the distributions of two canopy tree species in a Costa Rican secondary rain forest
B. Herrera, B. Finegan 259–267

Phosphate availability in combination with nitrate availability affects root yield and chicon yield and quality of Belgian endive (*Cichorium intybus*)
R. Améziane, L. Cassan, C. Dufossé, T.W. Rufty Jr., A.M. Limami 269–277

Soil and solution chemistry under pasture and radiata pine in New Zealand
R.L. Parfitt, H.J. Percival, R.A. Dahlgren, L.F. Hill **279–290**

A large ephemeral release of nitrogen upon wetting of dry soil and corresponding root responses in the field
M. Cui, M.M. Caldwell **291–299**

Volume contents **301–303**

Author index **304**
